

Train Crossing Notifications

Authors: John Burton, Aidan Wood, Luke Hatchl, and Allen Kirby

Problem Statement

Trains are a major inconvenience for all residents of Columbia. They cause people to be late and miss work/class every day. Our solution should provide users notifications when trains are crossing a desired route.

Who is experiencing the problem?

Residents of Columbia, SC

Why does it matter?

Because it negatively affects people's lives and could easily be avoided.

What is the problem?

People are late and miss daily obligations such as class and work.

Where does the problem present itself?

At the intersections of railroad tracks and streets
